

## Peyote series

Designed by E-ggs, Italia

---

A side table with an organic design, which complements your decor and adds an honest, durable and natural look to your home. The Peyote side table is designed by the Italian design studio e-ggs and is inspired by leaves, which can be seen in the round leaf-shaped base, which also ensures solid support for the elegant, floating table top.

### Meet the designer

We are an interdisciplinary design studio composed of different personalities, backgrounds and perspectives, which create a dynamic design process. We are inspired by our surroundings and the world we live in. Materials, structures, colours, forms and hidden details that pique our curiosity. All helping to shape every single design, which express different reflections and ideas. Our designs are therefore a direct result of the interaction that takes place. Between us and the designers and between us and the outside world.
