

HERIT

Danish design traditions have left a clear mark on Simon Legald's chair series, Herit, which is short for heritage. The series reflects his love of classic Danish furniture craftsmanship and rose from a desire to design a versatile and strong chair that unites the different eras of Danish design. A chair in which oak and plastic merge in tactful synergy, to create a hard-wearing, maintenance-friendly and accessible design, made for modern life.

Herit Chair

Herit Armchair

DESCRIPTION

The simple and honest style that characterizes Danish furniture history stands as a clear frame of reference for the Herit series. However, Herit is just as much a design that looks forward. Innovative production methods, new material compositions and timeless silhouettes give life to a chair that stands tall on its own.

DESIGN

Simon Legald, 2018

MATERIAL

Shell: Polypropylene
Legs: Lacquered Oak / Painted and Lacquered Oak

CONSTRUCTION

The polypropylene parts are molded with a core of foam. This innovative technique makes it possible to create thickness in the needed areas in order to obtain the best seating comfort and construct the sweeping lines of the design. Legs are made of solid wood. Herit comes assembled.

TEST

EN 1022:2005 and EN 16139:2013. Level 2

ACCESSORIES

Comes with plastic (PE) gliders

SHELL

LEGS

Herit Chair Upholstery
