

# STUDIO

There is something virtually graphic about the way the slender steel frame grows out below the seat and back of the Studio chair, framing the molded shell in an airy design. The flowing lines stand out in an eye-catching silhouette, like a line drawing or pictogram, just as the empty spaces between the frame and the back act to define the shape. The simple construction in veneer and steel tubing leads the mind to older French factory chairs, giving Studio its industrial notes. A design that attracts attention, but glows with pure simplicity.
