A contemporary multi-purpose chair series

Inspired by Danish hygge, designer Simon Legald has created a contemporary multipurpose chair series that performs as impeccably in comfort and endurance, as it does in adding warmth and ambience to the interior. With its hearty, welcoming expression and resilient construction, the Hyg chair and barstool can adopt a wide range of expressions. Designed to provide support according to body contours, the Hyg chair places itself somewhere between chair and armchair with a shape that gently embraces you while allowing for freedom of movement.

Hyg chair swivel with full upholstery, shown with Slice table and Bell lamp

Product Facts

Description

With its hearty, welcoming expression and resilient construction, the Hyg chair is a great match for both domestic settings and contract use. Designed to provide support according to body contours, the Hyg chair places itself somewhere between chair and armchair with a shape that gently embraces you while allowing for freedom of movement.

Designer / Year Of Design

Simon Legald / 2019

Material

Shell: Polypropylene

Upholstery: PU foam with front or full upholstery

Legs: Powder coated steel / Aluminum

Construction

A shell of high-strength polypropylene is mounted on a steel or aluminum base. Hyg is delivered assembled.

Maintenance

Shell: Clean with damp cloth.

Textile: Clean with textile or upholstery cleaner.

Leather: Clean with damp cloth. Use warm water with soap flakes.

Frequent vacuuming with a soft fitting is recommended for both textile and leather to preserve color and appearance.

Accessories

Comes with PE glides.

Felt glides can be purchased separately.

Test

Hyg Chair Steel

EN 1022:2005 and EN 16139:2013. Level 2

Hyg Barstool Steel

EN 1022:2005 and EN 16139:2013. Level 2

Environmental information

Recyclable

All materials can be recycled. Our chairs are clearly marked with the material and recycle symbol.

REACH

Normann Copenhagen and our suppliers commit to follow the regulations of REACH at any time. According to the regulations of REACH, none of the materials used for the Hyg chair require registration.

Emission test

ANSI/BIFMA – CDPH 01350

Polypropylene shells

Chair shells are made from recyclable virgin polypropylene (PP), which has the following advantages:

- It consumes low energy during production
- It produces low carbon dioxide emissions, when compared to other polymers
- It can be recycled several times and be used in many different applications
- It is not considered hazardous materials under the OSHA Hazard Communication Standard
- It offers high resistance and durability

Steel bases

Steel bases are made from cold steel with a powder coating. The powder coating does not contain any VOC (Volatile Organic compounds) and meet the REACH regulation (EC) no. 1907/2006

Upholstery

We offer upholstery in fabrics certified to the EU ECO label and/or OEKO-TEX and fabrics based on recycled materials.
