Donna – a strongly soft personality. Sophisticatedly crafted with materiality crossed. Appearance inspired by pleated fabrics – shaped in aluminium. Neatly discreet. Never unnoticed. Blending in. Standing out. On the wall. From above. Together. Alone. Versatile. Forever.

ABOUT

Donna Wall – Elegantly contradicting softness.

Playing with an expression of soft pleated fabrics, the Donna Wall adds a feel of craftsmanship and warmth to any interior. The form is inspired by textiles used in high fashion and the contradiction of recreating softness using a hard material. The upward light direction in combination with the lamps sophisticated personality creates a welcoming atmosphere. Made from thin, lightweight aluminium with a smooth matte finish, the Donna Wall is as versatile as it is beautiful.

The Donna Wall is a perfect choice for hotel corridors, restaurants and any space to which its refined personality and soft light can create a warm and welcoming atmosphere.

Maja Norburg, founder of Pholc, describes the Donna Wall, "The lamp is a natural progression of the Donna family. The new Donna Wall has the same sophisticated pleated expression as its family of characteristically pendant lamps. With its new shape and placement, Donna Wall will elevate hallways, corridors, and other areas in need of welcoming wall lamps".
