All you need is a little light

THE LIGHT OF SPRING

New Works presents new lighting designs

That playful flicker of bright Spring light shining through a window, or the warm glow that counters the progressing darkness when a light is turned on at dusk. Sometimes, all our surroundings need to feel fresh is a little light. And light we shall bring you. Choosing icon over novelty, this Spring launch celebrates coveted New Works lighting designs with line extensions that focus on technical properties and tactile materials. Distinct, yet familiar, each design explores new features and functions while paying homage to the form and feel of its predecessor. Their sculptural shapes accentuate material meetings between the smooth and the crinkled, the matte and glossy, the veined and unbroken.

Panter & Tourron takes the flowing, texture-rich shade of their Tense pendant into new technical areas while extending its application to multiple surfaces. The portable version of Lars Tornøe's Kizu table lamp offers additional features in a smaller format, flaunting a petite figure and carefree cable-free placement of light. Finally, a floor lamp joins the Material series, completing this extensive lighting family. As the warmer temperatures return, the great outdoors calls and come June, the Sphere adventure light makes its entrance, illuminating open-air adventures. You will discover our novelties mixed in with our existing collection across the following pages. We hope you will enjoy the read.

Kizu Portable Table Lamp

Lars Tornøe

Balancing bold forms, the Kizu table lamp intrigues the eye with its sculptural composition, and this portable version of the lamp is no exception. Materials and expression are as we know them, but this cordless, smaller size is easy to move around where light is needed. With marble as the bearing element, the lamp obtains natural stability and the polished stone feels comfortable to the touch.

Nevotex Lana

Covent Chair

Arde Design Studio

The Covent chair displays a comforting simplicity, a soft embrace suitable for a long evening around the dinner table. Inspired by the geometry of Mondrian's line work, its slim frame shows an asymmetry that defies its strength, presenting a floating cocoon of soft fabrics or leather. A chair that has paired traditional craftsmanship with a truly modern form.

Missing Chair

Regular Company

The Missing chair appears as if a simple line drawing has sprung into life. Sensual yet strong, the soft curve of each line creates a whimsy that is hard to describe. Straight lines have been softened, allowing the timber seat and back to appear as if floating above the thin steel frame. What remains are the bare essentials in our own interpretation of the humble cafe chair: light, stackable and durable, completed by a highly comfortable silhouette.
