Our values

Danish identity

Halo Design was founded in 1994 by the Danish entrepreneur Michael Waltersdorff at the age of 18.

Nordic design

We believe that by studying our roots and constantly developing a modern design language, our light solutions are highly distinctive yet recognizable on the global market.

Functionality

We want our products to improve everyday life. For this reason, we integrate our lamps with interesting features that enhance the user experience in original ways.

Value for money

Good design is truly great when it can offer a unique experience at a reasonable price. We always seek to develop feasible solutions that balance aesthetics and functionality.

The light that surrounds us defines how all things look and has a strong influence on our state of mind. We believe that a positive and cozy environment needs the appropriate light to make people comfortable.

Technology today enables us to deliver customizable and highly efficient light that can enhance our feelings. Therefore, lamps must be functional and technically advanced to integrate organically in an environment to make us feel at home.

Our goal

HaloDesign crafts original and functional lamps with a Scandinavian minimalism in mind. We constantly reinvent our design language to be contemporary and sustainable. At the same time, we are faithful to our philosophy of developing lighting solutions that are aesthetically unique, yet affordable for many.

Owner and Design Director

Michael Waltersdorff

Born in 1975 in Hellerup, Denmark, he is a self-taught Danish designer. His designs include several classics for Halo Design Copenhagen, which he founded in 1994 at the age of 18.

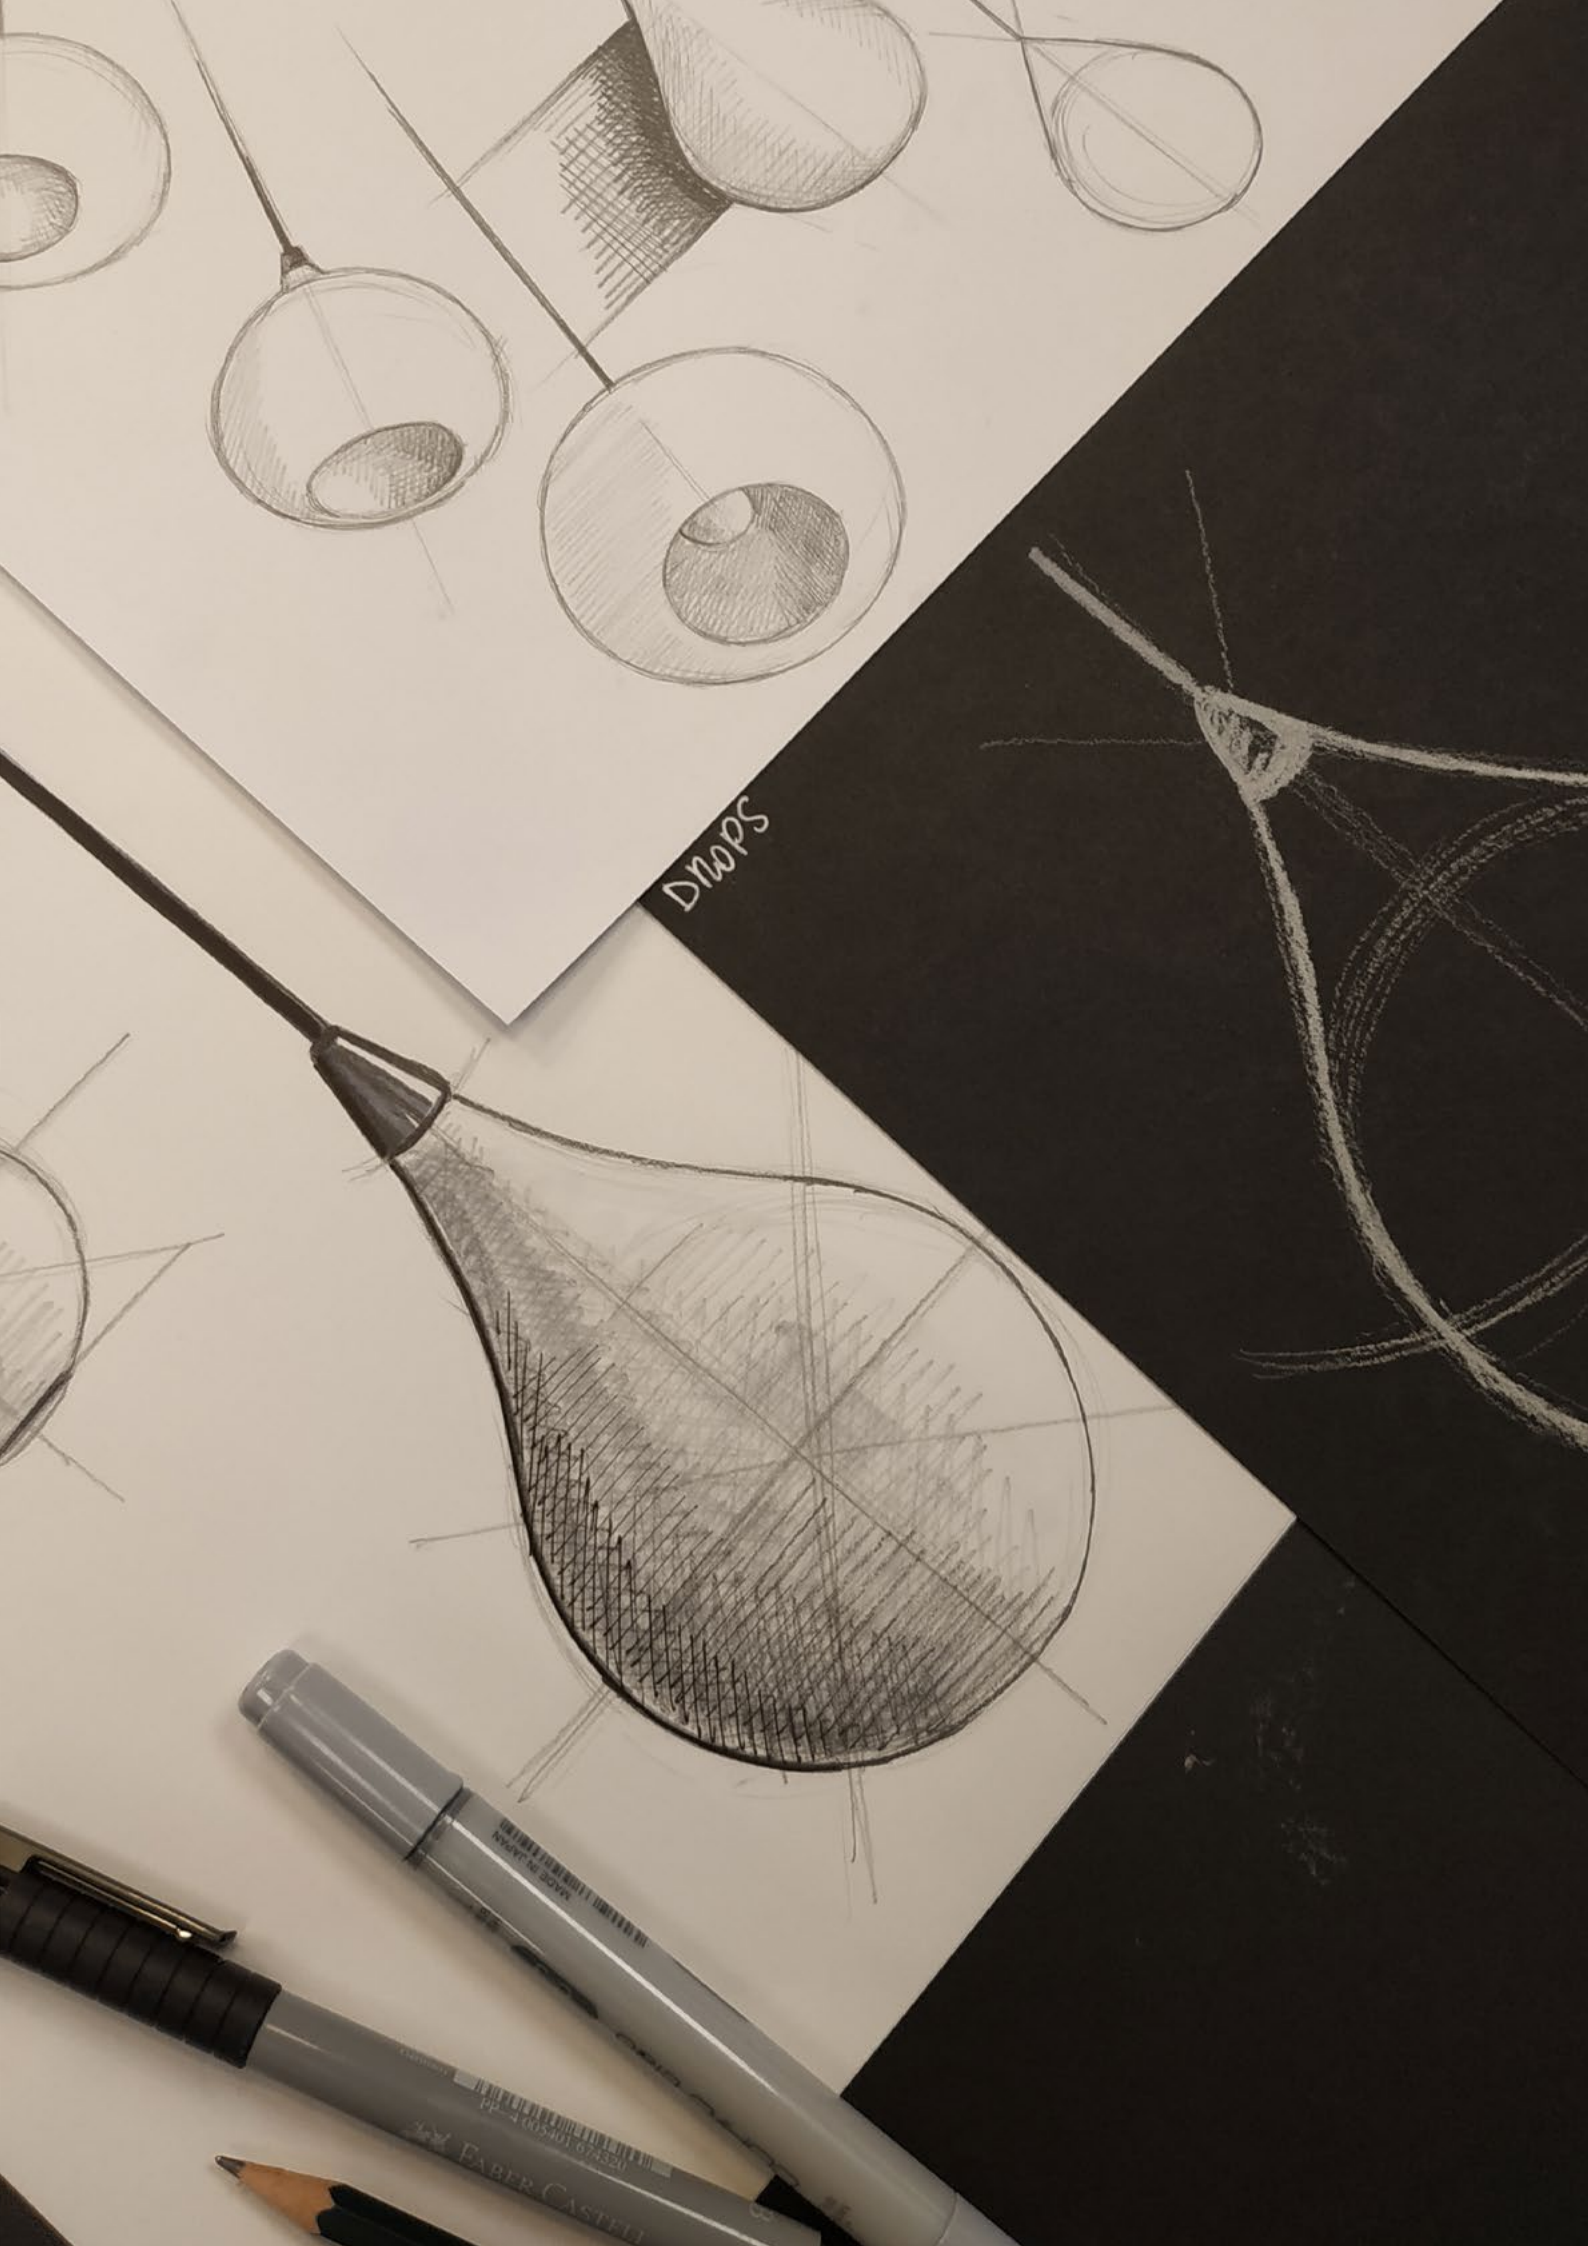

He is the owner and design director of Halo Design, a company that manufactures lamps and light bulbs. His work is distributed throughout Europe.

Designer and Art Director

Emanuele Patton

Born in Trento (Italy) in 1979, he has studied industrial design at the Polytechnic of Milan and at the Royal Danish Academy of Fine Arts of Copenhagen.

He has worked for more than 20 years in design companies in Europe. Since 2017 he has been a permanent employee of Halo Design, where he is involved in both the design of new products and the company's development strategy.

HALO DESIGN

The Collection

Stockholm

Aesthetic and material research results in this family of lamps, which features an opal glass with marble decoration combined with brass finishes. The lamps also feature fine details such as a pivoting point on the canopy of the pendant models, useful for rotating and positioning them as desired.

NEW

All pendant models of the Stockholm series feature a pivoting point on the canopy, useful for rotating and positioning them as desired.

Each Stockholm lamp is a unique object with individual glass decorations. They change their appearance during the day, depending on the situation and the intensity of the light source.

Outdoor: yes, IP54

On The Move

This battery-operated lamp combines modernity and a classic design with walnut veneer and brass details. Thanks to a magnetic connection and its spherical shape, it allows the luminaire to rotate at will to optimise the direction of the light.

Battery: 4000 mAh (5 to 7 hours)
Outdoor: yes, IP54

Hygge 230V range

Many of our partners have asked us to develop a 230V lamp series based on the success of the battery-operated Hygge lamp. And we have listened to these requests and have created a complete range of lamps, extending and enriching the design behind the original concept with functional details.

Paris

Paris is truly one of those cities where fashion really happens, both in the streets and at home. For this new family of lamps we've taken inspiration from recent trends, where collections are being designed with pleats of dark and natural tones.

Drops

Icicles form when the conditions are right in winter, snow-covered trees and frozen water create the most beautiful drops, from which we drew inspiration for the Drops series in the Nineties. The unique result is thanks to the silky opal mouth blown glass, which is produced by one of the best glass factories in Europe.

Designed by Michael Waltersdorff

Drops pendant Ø17

Opal
Art. 407917

Size: Ø17 cm, H24 cm
Material: Glass, alu
Color: Opal, brushed alu
Socket: E14, Max 40W excl.
Cable: 250 cm textile

Drops pendant Ø23

Opal
Art. 407924

Size: Ø23 cm, H34 cm
Material: Glass, alu
Color: Opal, brushed alu
Socket: E27, Max 40W excl.
Cable: 250 cm textile

Drops pendant Ø30

Opal
Art. 407931

Size: Ø30 cm, H42 cm
Material: Glass, alu
Color: Opal, brushed alu
Socket: E27, Max 40W excl.
Cable: 250 cm textile

Drops pendant Ø38

Opal
Art. 405821

Size: Ø38 cm, H51 cm
Material: Glass, alu
Color: Opal, brushed alu
Socket: E27, Max 40W excl.
Cable: 250 cm textile

Drops Metal

Inspired by its sibling (Drops in opal mouth blown glass) we challenged ourselves to make a classic, yet modern metal pendant. The result was a series of 4 metal wire pendants, with a unique lid in the bottom in brushed copper.

Designed by Michael Waltersdorff

Drops pendant Ø17
Black
Art. 990891

Size: Ø17 cm, H28 cm
Material: Metal, wood
Color: Black, mahogany
Socket: E27, Max 40W excl.

Drops pendant Ø30
Black
Art. 990914

Size: Ø30 cm, H48 cm
Material: Metal, wood
Color: Black, mahogany
Socket: E27, Max 40W excl.
Cable: 200 cm textile

Drops pendant Ø38
Black
Art. 990921

Size: Ø38 cm, H56 cm
Material: Metal, wood
Color: Black, mahogany
Socket: E27, Max 40W excl.
Cable: 200 cm textile

Bubbles

The apparently simple shape of the Bubbles lamps is actually a deep study of geometry, where proportions are balanced between the three spheres that make up each product. The final appearance offers a play of transparencies and reflections and a wide choice of colors thanks to the combination of different glass and steel element finishes.

Designed by Emanuele Patton & Michael Waltersdorff

Mesh

Mesh features a grid of ribs in the hand-blown glass, giving visibility to the geometry of its design. The result is a series of lamps that diffuses light and at the same time create a unique play of reflections.

Forty-five

The central body of this series houses the light source angled at 45 degrees giving the pendants its name. Featuring black-coated metal details and smoked glass, these lamps are an eye-catching centrepiece for any modern living space.

Atom

Halo Design's Atom series is inspired by the structure of atoms and their rotating electrons. An in-depth study of modern lighting needs has resulted in a unique collection of malleable lighting, where each lamp offers the ability to customize its appearance. In this way you can easily and comfortably create the most suitable version for your environment.

Baroni

With its beautiful white opal glass and details in brushed metal, the Baroni series is a true classic yet modern at the same time. The high quality of the glass makes sure to obtain a diffuse light that can illuminate in a very effective and decorative way. Baroni is available in various sizes and for different functions: as pendant, table lamp and floor lamp.

Bodø

The lamps of the Bodø series are deliberately simple and reserved, focusing on details. The soft surface and round shape of the opal glass offers a functional and efficient light reflection.

Pivot

Pivot is the culmination of a long phase of research and development to achieve a lamp that is elegant, minimalistic and highly functional. The result is a family of unique and flexible pendant lamps that can easily be fitted into any room.

Frame

Frame combines in a compact body a highly efficient light with high quality materials. Details such as the internal fabric shade, the antique brass finish elements and the perforated sides make this family of lamps aesthetically unique.

Wrong

Wrong has a curious look that is difficult to express in words. The shape of the mouth blown opal glass is asymmetrical and changes continuously depending on the point of view of the observer, giving the feeling of having several lamps in one. Definitely a family of lamps that must be seen in person to appreciate its aesthetic quality!

Dueodde Metal

A curvy shape and the contrast between metal and solid oiled oak wood gives this family of lamps a unique look. The inspiration for the design comes from the hourglass, an object of great charm whose sand was once taken from the Dueodde beach in Bornholm (Denmark).

Dueodde Glass

The original design: organic shapes and high-quality opal glass for this series consisting of three pendant lamps. Dueodde beach is one of the best beaches of Bornholm (Denmark). Its ultra-fine sand has been traditionally used in hourglasses, from where the inspiration was found.

Designed by Emanuele Patton & Michael Waltersdorff

Ball Ball

Ball Ball—as the name says this is a combination of two spheres, melted together in a sophisticated mouth blown glass. Ball Ball is an elegant series of 3 glass pendants. The soft round organic edges created by the curves of the glass reflects the light and casts the shadows to the surroundings.

Designed by Michael Waltersdorff

Vintage

Made of solid wood complete with a turned metal lampshade. The lamp rotates 180 degrees from the wall plate, and the reach can be extended as desired. The head is tiltable, and it can be fixed to the desired position by means of the locking wing nuts. The lamp combines functionality and high-quality materials, expressed through the wood and metal details.

DC

DC is a family of lamps with a simple and Scandinavian inspired design. Thanks to its round shapes and the combination of metal and wood, this range immediately became one of our classics. The veneered oak arch also has a very important function in rotating the shade of the lamps and directing the light freely. The details obtained from solid aluminium complete a unique design that is highly appreciated worldwide.

Århus

The name of this series was inspired by the city of Århus, often referred to as 'The City of Smiles'. The lamps, in fact, have a shape that recalls a smile in the upper part of the metal cover which makes its appearance unique. The combination of the cylindrical wooden element with the metal cover offers not only an interesting aesthetic but also an additional functionality: the possibility of adjusting the direction of the shade in floor and table lamps.

Nivå

Nivå is a series of lamps creating balance between the industrial vibe and nature. The metal shade and white lacquered inside surface ensure that the main part of the light is channeled in a straight direction. The lamps are decorated with a unique circle made of mahogany that ensures a nice transition, where the light will create an elegant stripe of light.

Halo

The Halo series is the result made by a special laser technique, where the aluminium is crafted with extreme precision. The details are often seen on vintage motorbikes, from where we got our inspirations. The series comes with different combinations and colours and is truly a first mover. We recommend using our range of decorative bulbs, to get the right look as you see from the photos.

The Classic

The Classic lamps feature a metal body made of turned steel that is hereafter polished by aluminum oxide sandpaper, which is the best option for polishing hard metals. The 3 different colors, all have deep carvings from this oxide treatment.

1123

In 1994 when Halo Design was established, the company was situated in Copenhagen, Gothersgade no. 163. The zip code was 1123 Kbh K. The first ideas for a multi layer shade were made back then, and from that we found an old sketch made by Michael for this series.

Colors Hygge

"Hygge" is much more than a word for the Danes, it is a philosophy and a mindset that makes us one of the happiest countries in the world.

The Dim LED "Hygge" bulb from Colors is created from that concept and it helps remind you to find moments of joy in every day, also the busy one.
