

TURNER 65 PENDANT —
BY BROBERG & RIDDERSTRÅLE 2021

#279 113

Turner is a dynamic pendant lamp, composed with quiet minimalism and expert precision.

ABOUT

Designed by Broberg & Ridderstråle, Turner is a dynamic new pendant lamp, composed with quiet minimalism and sculptural precision. A sphere is sliced into a series of orbits that create an ever-changing appearance. Turner's design is the direct result of experimentation with the polymer-sprayed cocoon material and wire construction. Combining a soft glow with a strict form, Turner is an omni-directional lamp that banishes unwanted shadows to create a beautifully pure white surface on which light can dance. Turner is both functional and atmospheric, it can illuminate an entire room or hanging suspended over a dining, working or seating area.
